SUMMARY

Full Stack Developer with **4+ years of experience** building robust web applications using **React, Vue, and Angular**. Proficient in **Node.js, Python, and .NET**. Hands-on experience in **end-to-end project** execution, including requirements gathering, performance testing, CI/CD pipelines, proof of concept, and UX/UI optimization. Delivers high-impact solutions focused on **performance and client value**.

EXPERIENCE

Front-end Developer (Mid-Level)

Marttech - Desenvolvimento de Software

July 2024 – August 2025
Toledo, PR, Brazil (Remote)

- Gathered technical requirements from clients and documented system impacts.
- Prioritized tasks and organized sprints in **Azure DevOps**.
- Implemented user interfaces in **React.js** following usability guidelines.
- Built reusable components with **Material UI**.
- Optimized **MapBox** polygon and layer implementations, reducing load time by **80%** and memory usage from **6GB to 2GB**.
- Refactored parts of the application architecture, addressing performance and usability issues.

Development Analyst (Mid-Level)

IBrowse Consultoria e Informática

August 2023 – January 2024
Porto Alegre, RS, Brazil (Remote)

- Supported internal and external teams in handling technical demands.
- Developed and fixed features in **Angular** applications.
- Defined architecture and design patterns for the application and new modules.
- Configured **CI/CD** pipelines and managed **GitLab** repositories.
- Created unit tests using Karma with **77%** overall code coverage.
- Reviewed code and tracked deliveries in **ClickUp**, ensuring compliance with internal standards.

Front-end Angular Web Developer

INOVA - Polo de Inovação IFAM

March 2023 – July 2023
Manaus, AM, Brazil

- Refactored outdated **Angular** pages and components.
- Created new screens and flows to expand the application.
- Fixed critical bugs reported by end users.
- Mentored 3 students in technical activities, supervising deliveries and professional development.

Information Technology Analyst

ClearSale

January 2022 – December 2022
São Paulo, SP, Brazil (Remote)

- Built interfaces and components in **Vue.js**.
- Maintained and evolved features in **C#** and **jQuery**.
- Modeled and managed data in **SQL Server**.
- Documented application flows for development teams.
- Analyzed production errors and reported moderate failures.
- Developed **unit tests** to ensure code quality.

PROJECTS

GitJobs

July 2021 – August 2021

- Prototype job search platform integrating public data from GitHub repositories.

EDUCATION

Software Engineering

Federal Institute of Amazonas

February 2019 – February 2023

Manaus, AM, Brazil
